Qore

Unique cable port design with hinged flap, keeps cables tidy and also serves as a fixing point for the shelf support or monitor arms.

All desks have a 19mm modesty panel which can be assembled under the top or with a larger gap to give greater access to the horizontal cable management area .

The rectangular shared leg frames , reduce components and physically join two legs together in linear runs . The shared legs can be used in combination with all desks

Cable management uses an innovative hinged wire basket mechanism that simply clips into place . Leg mounted flexible risers provide power from floor positions to offer a fully cable managed solution.

Strength
